Mr. Steve M. Alexander  
Perimeter Areas Section Manager  
Nuclear Waste Program  
State of Washington  
Department of Ecology  
1315 W. 4th Avenue  
Kennewick, Washington 99336-6018

DEC 29 1994

Mr. Douglas R. Sherwood  
Hanford Project Manager  
U.S. Environmental Protection Agency  
712 Swift Boulevard, Suite 5  
Richland, Washington 99352

Dear Messrs. Alexander and Sherwood:

TRANSMITTAL OF THE LIMITED FIELD INVESTIGATION (LFI) REPORT FOR THE 100-DR-2 OPERABLE UNIT, DECISIONAL DRAFT

Attached please find 2 copies of DOE-RL-94-73, Limited Field Investigation Report for the 100-DR-2 Operable Unit (OU), Decisional Draft for review by the U.S. Environmental Protection Agency and the State of Washington Department of Ecology. This document is undergoing concurrent U.S. Department of Energy, Richland Operations Office review.

The LFI report analyzes data relevant to the 100-DR-2 Operable Unit (OU) as identified in the 100-DR-2 OU Work Plan. This report and the associated qualitative risk assessment provide a basis for making the recommendation to perform an interim remedial measure or defer to the formal remedial investigation feasibility study process.

A target milestone of January 31, 1995, has been established for submission of the revised 100-DR-2 Work Plan after public review, and including the LFI as an addendum. To support this schedule comments are requested no later than January 6, 1995.

Messrs. Alexander and Sherwood
